The research project is expected to be presented as a work-in-progress or completed work as part of the Grant Program exhibition, which will take place in early 2026 at Salt Galata.

The **Production Grant** supports an artistic project that engages with the moving image's dynamic, diverse, and evolving nature and responds to contemporary societal and environmental issues. Applicants for the Production Grant are encouraged to:

- Focus on critical and timely issues at the intersection of art and design, technology, and ecology.
- Pursue an interdisciplinary and experimental approach to explore novel forms of storytelling, visual expression, and performance across film, cinema, and/or new media.
